

EuroSpeedway Lausitz - Noise and Luxury.

Join things that don't fit together at first sight – generating an exciting and unforgettable experience. Offer your customers, staff members, and guests something that is really special. Welcome to EuroSpeedway Lausitz!

Lausitz's race track facilities extend over 367 hectares, an area that is nearly double the size of the principality of Monaco. If one includes the so-called complementary areas, which can be used to establish industrial estates, as well, then the entire area covered amounts to more than 570 hectares.

Since the beginning of the year 2000, the world's fastest car race, the legendary "German500", the Superbike Motorcycle World Championship and the FIA GT have been held here. In addition, there are spectacular annual racing events, such as for example the German Touring Car Masters (DTM), as well as Top 10, F1 Historic, the International German Motorbike Cup (IDM), and open air music events e.g. with AC/DC or Herbert Groenemeyer.

But who says that race tracks can only be used for racing?

EuroSpeedway Lausitz has much more to offer to you and your guests, for example the fastest and most exciting components to make for the most special event that you've ever seen.

This is how you find us:

EuroSpeedway Lausitz can be reached very easily. You can get to us by using Federal Motorway A13. There are signs to our facility on the motorway; we have our own exit ("Ausfahrt") called EuroSpeedway Lausitz (which is exit No. 15). The distance from the motorway exit to our main entrance is only about 800 metres.

The city centres of Berlin and Dresden are only 120 and 50 kilometres away from EuroSpeedway Lausitz, respectively. Federal Motorway A13 directly links both cities with each other, thus guaranteeing short rides to Berlin's airports Schoenefeld and Tegel as well as the airport in Dresden.

Europe

Events, among others:

DTM	2000 - 2007
Champ Car	2001, 2003

World Series by Nissan	2003 - 2004
F1 Historic	2004 - 2005
IDM	2000 - 2006
BERU Top 10	2001 - 2006
Concerts	2001 AC/DC
	2004 Groenemeyer, WERNER
	2005 Boehse Onkelz

Champ Car "German 500"

Grand Prix Circuit 4.5 km

With its wide safety zones as well as the wide track and turn sections, the 4.534-kilometre-long course is ideal for professionals who want to test their limits, as well as being ideal for beginners. Connoisseurs underline the high-level driving skill challenges which characterise this race track.

The stands can hold 120,000 spectators, 25,000 on the grandstand alone. 41,000 parking spaces are available to the guests directly by the race track.

55 pits offer room for the largest of racing events – just like the state-of-the-art Media Centre with its diverse conference and seminar rooms for all kinds of occasions.

VIP Lounge in the grandstand

These lounges can accommodate between 28 and 35 guests. There is an integrated, exclusive terrace with 28 seats offering a view over the entire race track in the infield of the Superspeedway.

The lounges are exquisitely furnished. We can take your branding into consideration.

VIP Lounge above the pit lane

These lounges are designed to accommodate up to 50 people. You can also have meetings and presentations there. Your external office on 365 days!

On the reverse side, you have a view into as well as direct access to the paddock.

Direct view of the pit lane, the stand and the paddock – motor sport aura feels intensively and extravagantly

Catering directly at the scene of the event

Media Center in the paddock

Sun terrace I

570 m² with access to the seminar rooms

On the terrace you can spoil your guests with lots of sun and a wonderful buffet. Here you have a good view of the start and finish line, the pit lane as well as the paddock and various sections of the track.

Both seminar rooms (102 m² and 136 m², respectively) have direct access to the terrace. All of this is located on the first floor of the Media Center. In addition, you can access the terrace from a separate entrance, rather than through the paddock or the area of the champions' platform.

We can put out your flags and place other high-quality branding there as well. This would emphasise a professional impression and be the cherry on top of your event cake.

You will find more details about the size and the floor plan on this CD: "Overview of the Media Center". There, you will also find more seminar rooms, which are between 102 and 800 square metres.

Sun terrace II

700 m² directly above the pit lane

The terrace is located directly at the end of the start and finish line, i.e. directly next to the spectacular slowing down area at the entrance to the "DEKRA turn" and "Turn 1", respectively.

It is both possible and advisable to have a passage way to some of the VIP lounges above the pit lane. Do you want to set up something like a tent? No problem.

Example of furnishing the press hall for a car presentation

Example of furnishing the press hall for journalists during events

Media Center/Press hall

The press hall with its 800 square metres is the largest room you can use for your event. You will have plenty of space for conferences, seminars, and presentations even for large groups.

You will see your presentations in a totally different light. In a place where, during racing events, the VIPs of car racing are romping about, your staff members or customers will experience vividly the extraordinary flair of a race track.

You have direct access to this hall from the paddock via the reception desk area. The room is on the ground floor hence presentation vehicles, for example, can drive into it without a problem.

Likewise, the inbuilt professional media technology (TV-video and sound facilities, beamers, screen and ISDN unit) provides of all kinds of presentations.

Furnishing for a working and seminar environment as well as for a pleasant and exclusive environment can be provided. The choice is yours.

You will find the floor plan including the size of the rooms on this CD under the caption "Overview of the Media Center".

Speedway Driving Range

Fast cars and golfing have always been going together.

With our five sheltered and eight free tees, our Speedway Driving Range offers you a very special ambience. While you tee-off into the evening sun and enjoy a grand view of the main stand, you can hear how the vehicles are driving their laps on the race track – quite a setting!

With our Driving Range we add a stylish alternative to our diverse driving fun offers for your guests and customers. This is an ideal supplement to our driving programmes and all of the VIP lounge offers.

We would be pleased to provide you with expert coaches for tasters' courses or for determining a handicap for you.

Have a good game!

Dresden - Renaissance meets the modern age

The River Elbe and the gently rolling landscape between Saxon Switzerland and Meissen characterise the natural geographic region in which the city by the large river is imbedded. Its climate is favourable just as much for the development of arts as it is for wine-growing. Its inhabitants are well known for their own kind of charm, the proverbial Saxon relaxed atmosphere. At the same time, Dresden is a modern city with the aura of the former Saxon residence - a place with an inherent way of life.

Moreover, Dresden has sights to offer in various forms: No architectural history book can do without the Dresdner Zwinger. The Frauenkirche Church, the Semper Opera House and the Royal Palace characterise the picture of the city just as many other historical, architectural monuments and ensembles.

Magnificent riverside promenades, interesting museums and facilities, technical monuments, lovely details - Dresden has many things for you to discover.

Last but not least, the Transparent Factory invites you to automobile discovering and lingering.....

Downtown Dresden is located approx. 45 driving minutes away from EuroSpeedway Lausitz only.

Please find more information at www.dresden.de

EuroSpeedway

Spreewald

Around 2 million visitors from near and far come to the Spreewald Nature Reserve region each year, a landscape unique in Central Europe, situated in the southeast of Brandenburg.

The special attraction of the Spreewald, which has been declared a UNESCO Biosphere Preserve, lies in its widely ramified running water system which is vaster than the eye can see. The Spree river splits up here into about 300 different waterways whose overall length is around 500 km. The enchanting quietness and beauty are what cause enthusiasm in many Spreewald visitors and leaves them with lasting impressions.

Whoever is looking for quietness and recreation, but who wants to be active at the same time, will gladly come back and visit "Little Venice" again. And you can experience this beauty very closely after a drive of only 30 minutes from our grounds.

The famous Spreewald pickled gherkins, trips in a rowing-boat or in a punkt or Sorbian traditions - this is what the Spreewald is particularly known for throughout Germany.

F60 – the lying Eiffel Tower

Only 25 driving minutes away from EuroSpeedway Lausitz is the greatest movable machine ever created by humans in the world. Decommissioned only in 1991, it now offers fascinating insights in the past and future of this region dominated by lignite. On the round walk along the bridge measuring approx. 1.3 kilometres one can take a look on a changing Lusatia - whose symbol has become the F60.

The light and sound installation "LICHTERfeld" F60 which takes place every night leaves visitors in respectful awe over and over again in the face of this monument to human abilities.

It offers a uniquely breath-taking background for presentations and any other type of event.

With its imposing dimensions of 502 m in length, 202 m in width, 80 m in height and a weight of 11,000 tonnes, the former overburden conveyor bridge F60 tells about the history and present time of lignite mining in Lusatia.

Huge fun

Snowtropolis Indoor Ski Venue

Endless fun in the snow! Skiing at any time of the day - and especially in any season of the year!

Whether you are a beginner or experienced skier - the ski run measuring 130 m in length with its different slopes of up to 25 degrees offers various levels of difficulty to winter sport fans of any kind.

Moreover, you will have a particular lot of fun sledging. You can go up and down the ski run together and then clink glasses in the bar which is glazed in the front and offers a view over the entire ski run. You may also exclusively rent the snow arena for your company events.

It makes no difference whether skiing or snowboarding, all beginnings are difficult. Knowing this, the staff of the Skiing and Snowboarding School will gladly help you out upon request. Experienced snowboarders and free skiers will find their challenges at the fun park with jumps, kicker and slider located on the side.

Let's go and have fun in the snow! From EuroSpeedway Lausitz you can get to this pure snow pleasure within just 7 minutes.

Ski tow and fun park

Lake Senftenberger See

This artificially created lake exhibiting a high water quality is one of the largest of its kind in Europe and a fantastic example for the successful re-cultivation of a post-mining landscape.

You will find a suitable balance to an exciting day at the EuroSpeedway Lausitz going sunbathing or swimming. Lake Senftenberger See is also a paradise for sailors, surfers, rowers and divers and thus offers a great and individual framework for your event. The close proximity to EuroSpeedway Lausitz (10 minutes of driving time) makes it the more attractive to our guests.

www.senftenberger-see.de

Amphitheatre directly on the shore of the lake

The atmospheric Amphitheatre unites classical and most modern elements and may be used for other purposes as well after a few simple modifications.

The architecture of the Amphitheatre built to resemble its Greek model makes it a unique building of its kind throughout Germany. Due to the scenery, it is ideal for atmospheric presentations of any type, and one can get there in 20 minutes from EuroSpeedway Lausitz.

www.amphitheater-online.de

Tropical Island

Approx. 50 minutes away from EuroSpeedway Lausitz is the world's largest self-supporting hall.

Here you can go on a discovery tour in the tropical rainforest or go for a swim in the tropical sea. The 4,000 m² sea is bordered by an eight-metre-wide sandy beach - with 1,000 deckchairs and six beach volleyball courts. Apart from sporting activities you will be able to experience cultural performances and culinary delights as well.

Don't forget your suncream!

A new outer skin which is transparent and lets through UV-rays was put on the hall and gives you the possibility to get a tan throughout the year.

On a 2,000 m² screen behind cocktail bars and more than 12,000 tropical plants, artificial sunrises and sunsets are projected.

Enjoy the fascination of tropical plants and the holiday feeling close by!
